

DO YOU NEED **HIGH QUALITY TRAINING** FOR YOUR TEAM BUT YOU'RE **STRUGGLING WITH BUDGET?**

WE ARE OFFERING **AFFORDABLE TRAINING** IN YOUR SCHOOL.

**WAYS OF FACILITATING TRAINING:**

We can...

- Support PPA sessions (over a series of weeks)
- Lead active, extended twilights e.g.: 2.30-6pm (saves on supply expenses)
- Plan and lead inspirational INSET days, or half days, with one year team / a phase / whole staff team
- Offer training in your locality/group of schools so staff from many settings can collaborate, reducing the costs and enabling smaller schools to 'team up' for CPD opportunities.

### **OUR MENU FOR 2023**

### **ART AND DESIGN - IS IT AT THE HEART OF YOUR CURRICULUM?**

Let our inspiring art consultant enthuse and equip your teachers to teach the art curriculum well. Maureen Wells will unpack the key principles of the new art guidance (February 23<sup>rd</sup>, 2023) and give teachers the skills and techniques they need to enhance children's learning experience and achievement.

Maureen is also happy to teach a class, with teachers watching, so she can model outstanding teaching of art.

## COMPUTING - How to make it work in your classroom!

Ensure you fulfill this statutory requirement.

Practical, manageable approaches to enrich learning across the curriculum and develop computing competence, even if resourcing is challenging.

Work with our computing consultant Alex Blackman, who lectures in Computing at Sussex University and is a Specialist Leader in Education for Computing.

## CROSS CURRICULAR TEACHING TO ENGAGE AND INSPIRE EVERY CHILD

Open the box on how connecting subjects creates deep, memorable learning and space for children to 'own' their learning and develop character skills alongside competence in subjects.

Pick up stunning term plans for all age groups/phases.

Receive a copy of our newest booklist listing the best fiction and non-fiction texts available for 60 different themes.

See how to create wonderful classroom environments, that promote curiosity and exploration.

## Developing your Early Career Teachers (ECTs)

Equip your ECTs to become outstanding teachers.

Ensure best practice throughout your school.

Develop their understanding of how children learn.

Enrich their subject knowledge and pedagogical approach to delivering the National Curriculum.

## RAISING STANDARDS IN WRITING

How can we 'tip' children into writing rather than 'drag' some of them?

How can we give every child a passion to write and the skills to do so?

In every school where we have worked to help transform the curriculum, over the past 20 years, the first impact teachers remark on from our approach, is the improvement in writing.

Let us share our tried and tested approach to planning for, teaching and responding to children's writing.

Be amazed at what your children can achieve.

## READING - A DEEP DIVE INTO TEACHING READING MOST EFFECTIVELY

How do children best learn to read?

Which skills do children need to employ to read a text?

How do we best teach this skill set?

How do you assess what children are capable of in reading and what their next step should be?

Is there a method of organising all the books in the school into a coherent structure which aids children's choice of what to read and the teacher's ability to guide them?

Top tips for parents and carers for nurturing reading skills.

## SCIENCE – DEVELOPING CURIOSITY AND UNDERSTANDING OF OUR WORLD THROUGH SCIENCE

Strengthen your team's subject knowledge and creativity in delivering the National Curriculum expectations for Science.

Develop your children's scientific enquiry, creating scientists!

Ensure progression and challenge without the need for expensive schemes.

Gain valuable insight into how Science teaching can be fun and exciting, without the need for worksheets.

## SEND & EAL - How to teach so every child can flourish.

We have twenty years' experience of developing an approach to teaching and learning that enables **every** child to access and enjoy the curriculum.

We always consider children with SEND and/or EAL when planning teaching and learning in any context.

We have worked successfully with teachers in specialist schools and units within mainstream. Our highly brain-friendly, multisensory approaches have a positive impact on every child. We have had brilliant feedback from these settings on the positive impact Primary Matters has had on their children.
